Dr. LeSage,

One of our librarians came across two reports that you authored on the economic impact of Texas State University. Attached are copies of the two discovered:

- "The Economic Impact of Texas State University-San Marcos" (September 2007)
- "The Economic Impact of Texas State University" (August 2014)

With your permission, we'd like to add these to the Texas State University (TXST) [Digital Collections Repository](#). The repository houses the research and scholarship of university faculty as well as archiving university publications, reports, etc. Each item is assigned a permanent URL, includes viewable usage statistics, and is indexed in major search engines. We think these reports would be great additions and useful to our own campus and the wider academic community.

Please let me know if you have any questions and if you'd like me to add these two items, or other items.

Thank you and I look forward to hearing from you.
